EURO 76

Future-proof your installations. It's time to streamline your security.

No longer will you fit a panel dependent on the communicatION preference, instead, fit a panel and then add the communicator required. With HomeControl+ App compatibility as standard (with optional IP communicator) you can offer greater value and future-proof your installations. The same programming you have come to love, the same accessories, just less hassle and greater up-sell opportunities.

One panel, versatile security
